FOR IMMEDIATE RELEASE

On Point Technology launches the OPTimum Integrity Cloud Suite
The OPTimum Integrity Cloud Stops Fraudulent Claims In Their Tracks.

[Oakbrook, IL, September 8, 2020] – On Point Technology, the UI leader in fraud prevention software, has launched its innovative Unemployment Insurance Fraud prevention and detection cloud-based software suite “OPTimum Integrity Cloud”. This state-of-the-art software is a next-generation UI integrity solution that leverages centuries of UI experience, millions of dollars in R&D, and the power of cloud computing to provide a revolutionary approach to stopping fraud. With years in the making, this modern and innovative solution solves for the current UI Fraud Crisis. Our modern architecture allows for deployment in your agency faster and more affordably than ever before.

As part of our OPTimum Integrity Cloud launch, On Point Technology is hosting a Unemployment Insurance Fraud Webinar. Our UI experts will be presenting an overview of the current UI Fraud Crisis and the On Point team will demonstrate how the Optimum Integrity Solution effectively solves this crisis.

About On Point Technology

Founded by former state and federal agency staff and executives, On Point provides superior, modern, and efficient solutions to streamline benefits agencies' workflow. Designed with an eye towards the future and a deep understanding of the past all our products are built to maximize ROI and improve efficiency. With the largest footprint in the UI industry, over half the states trust our products and services above all others. We are the only vendor to be called upon to give expert testimony before Congress on the challenges facing the UI benefits system. Currently, our new configurable and scalable OPTimum Integrity Cloud is revolutionizing the fight against fraud.

About Dale Ziegler

Mr. Ziegler has 27 years of experience in the UI program on both the state and federal level. His responsibilities have included both policy establishment and oversight, and program operations. Prior to his retirement in 2012, he worked with the U.S. Department of Labor (USDOL), the State of Washington's Employment Security Department, and the Maryland Department of Economic & Employment Development. Mr. Ziegler currently serves as On Point's Director of Government Relations.

About Kathryn Moore

Ms. Moore has a distinguished 33-year career with the State of Washington, Employment Security Department. She managed three statewide programs, the Office of Special Investigations (OSI), Benefit Payment Control and UI Benefit Training. As Chief Investigator, Ms. Moore used her extensive investigator knowledge to identify crossmatches and technology tools needed to prevent, detect, and prosecute cases of identity theft, fictitious employer, and internal fraud. Ms. Moore currently serves as a Senior Business Analyst with On Point Technology.

About Michael Lorsbach

Prior to founding On Point, Mr. Lorsbach worked for the Illinois Department of Employment Security in technical, analytical, and supervisory roles. He also consulted to Fortune 500 companies in the design and implementation of order entry, personnel, payroll, banking, Automated Clearing House debit, and other systems. Mr. Lorsbach has over 30 years' experience in UI and more than 20 years in information systems.
