

South Dakota Department of Labor selects On Point Technology, LLC to conduct Business Process Analysis

OAK BROOK, Ill., July 24, 2014 /PRNewswire/ -- On Point Technology, LLC has been awarded a contract with the South Dakota Department of Labor and Regulation to conduct a business process analysis (BPA) of the South Dakota Department of Labor and Regulation UI benefit system. The project will include identifying areas of need for which the Department of Labor could approve upon: recommending ideas for increasing program integrity, reducing improper payment, and developing best practices to further increase the efficiency and effectiveness of the benefits system.

"For more than a decade we have delivered unmatched expertise in all facets of UI programs including benefits, tax, adjudication, overpayments, and fraud prevention and detection," said Mike Lorsbach, President of On Point Technology, LLC. "We are excited to work with South Dakota in determining how to better improve the overall performance of their Unemployment Insurance Division."

About On Point Technology

Founded in 1996, On Point Technology, LLC is the leading independent solution provider dedicated to State Workforce Agencies. On Point Technology's solutions have been developed to the finest detail because we work arm and arm with our clients across the country to create best-of-breed solutions and best practices that deliver optimum results.
